1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand what consumers want and what gaps exist in the current market.

Question	Answer	Question	Answer
1. What is the main purpose of the study?	To investigate the effect of the new curriculum on the learning outcomes of the students.	2. What are the research objectives?	To compare the learning outcomes of the students before and after the implementation of the new curriculum.
3. What is the research methodology?	Quantitative research methodology using a pre-test and post-test design.	4. What are the variables of the study?	The independent variable is the new curriculum, and the dependent variable is the learning outcomes.
5. What is the sample size?	100 students.	6. What are the data collection instruments?	Questionnaire and test.
7. What are the results of the study?	The results show that the new curriculum has a positive effect on the learning outcomes of the students.	8. What are the conclusions of the study?	The new curriculum is effective in improving the learning outcomes of the students.
9. What are the recommendations of the study?	The study recommends that the new curriculum should be implemented in all schools.	10. What are the limitations of the study?	The study has some limitations, such as the small sample size and the lack of control group.
